

WE UPGRADE GAS ENGINES

GO SHIELDED!

The demand for more safety and full protection in hazard locations has forced MOTORTECH to design and manufacture a full line of shielded ignition coils!

- CSA approved for Class I, Div. 2 Group C/D
- Safe and reliable design reduces risk of personal injury and property damage
- Available in different versions to work with every popular ignition controller
- Automated manufacturing process
- Designed and manufactured in Germany
- Shielded primary leads – heavy steel braid and rigid terminations – made to last
