

WE UPGRADE GAS ENGINES

POWER SOLUTION

THE ALTERNATIVE FOR CAT® GAS ENGINES

The demand for more specialized ignition coils has forced MOTORTECH to design a new series of ignition coils, specially made for use with CATERPILLAR® gas engines.

- Available in different versions for use with G3400, G3500 and G3600 series engines
- Compatible to original ignition coils
- Supports CATERPILLAR® ignition systems
- Use of high-quality material
- Spark plug extensions made of high-quality Teflon™ for high dielectric strength
- Improved design eliminates use of metal ring
- New style spring loaded secondary terminal inside ensures proper and reliable connection to spark plug (patented design)
- Made in Europe

Steel adapter to meet CSA specifications
