

WE UPGRADE GAS ENGINES

Tired of Watching Tiny Monochrome Displays?

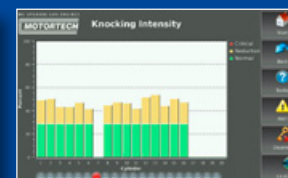

PowerView3 Visualize your Ignition and Detonation Data

The days of getting tired with working through tiny monochrome display menus are history. Be smart and try MOTORTECH's cutting-edge 7" HMI module to visualize your ignition and detonation data.

- Compact and flexible Human-Machine-Interface
- Colorful 7" resistive touch display (800x480)
- Complete visualization of ignition and detonation data (on more than 25 screens)
- Easy recording of operating data via USB and SD-Card interface
- No need of an extra laptop

**Resistive Touch
7" TFT Display (800x480)**
