VariFuel2 Adjustment Tool For Belt Tensioning

To ensure the best possible air/fuel ratio, the belt tension must be adjusted every time the drive belt is replaced or after any changes that may impact the tension of the drive belt. MOTORTECH has designed a tool specifically for your VariFuel2 type, which lets you conveniently set the optimal belt tension.

Toolkit consists of:

- VariFuel2 adjustment tool
- Hexagon socket head cap bolts to install the adjustment tool
- Hexagon socket head cap screw-driver for the adjustment tool and stepper motor
- Operating instructions for the adjustment process
- Plastic box to store the toolkit

Functional principle
