VariFuel2 Air/Fuel Ratio Mixer Tools for Repair and Maintenance

To simplify repair and maintenance work, MOTORTECH offers special tools for gas mixers of the VariFuel2 family.

VariFuel2 Locking Tool for Toothed Pulley

The tool is used for locking the toothed pulley of a VariFuel2, so that you can tighten or release the hexagon socket head cap bolt that fixes the toothed pulley on the shaft. These work steps are for example necessary for adjusting the fuel ring of a VariFuel2 or replacing the toothed pulley.

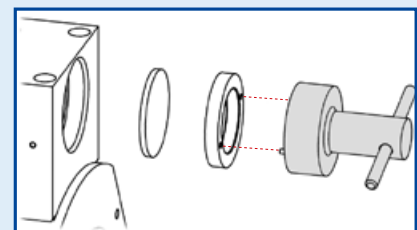

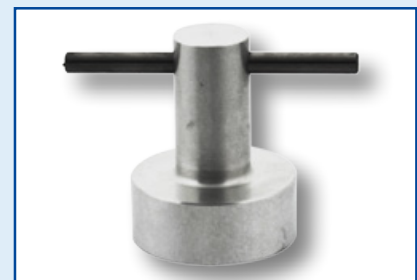

Ordering Information

P/N	For Use with VariFuel2 Series
31.01.943	100-50D/M, 140-xxD/M, 200-1xxD/M, 250-150D/M

VariFuel2 Tool for Inspection Window

The VariFuel2 Tool for Inspection Window is used to install and remove the inspection window at the upper part of the VariFuel2 housing. You need to remove the inspection window, for example, if you need access to the toothed pulley.

Ordering Information

P/N	For Use with VariFuel2 Series
31.01.949	100-50D/M, 140-xxD/M, 200-1xxD/M, 250-150D/M
