PowerView3 HMI Module

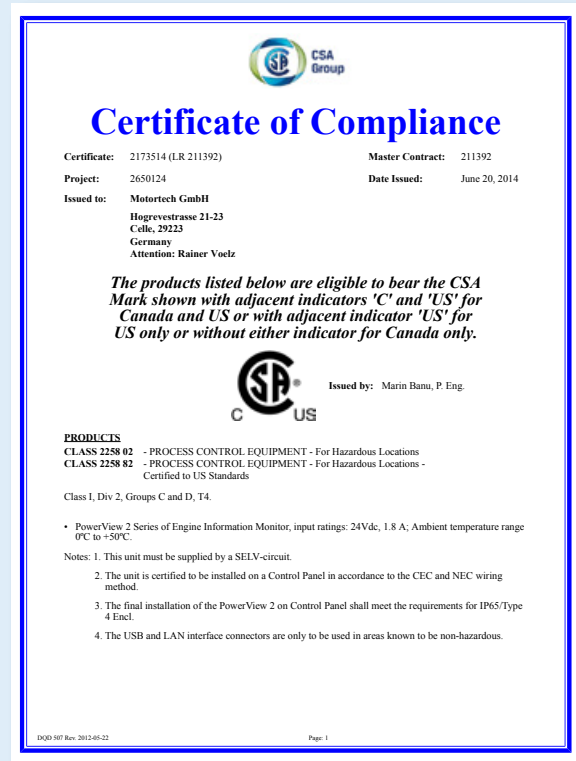

CSA® Certification Complete

Following a successful audit, the PowerView3 HMI module is now CSA®-certified and in compliance with Class I, Division 2, Group C and D; T4. It is therefore approved as an important addition to ignition controllers of the MIC3, MIC4 and MIC5 series and the DetCon Detonation Control System.

The following conditions have to apply for operation in potentially explosive environments:

- The HMI module must be supplied by a SELV circuit.
- The module is certified to be installed on a control panel in accordance with the CEC and NEC wiring method.
- The final installation of the PowerView3 on control panel shall meet the requirements for IP65/Type 4 Encl.
- USB and LAN interface connectors are only to be used in areas known to be non-hazardous.

For more information about the PowerView3 HMI Module, please see current Sales Flyer on <http://www.motortech.de/fileadmin/download/sales/MOTORTECH-SalesFlyer-PowerView3-EN.pdf>

DISTRIBUTION

Customers / others	Yes
