Spark Plug Lead For CUMMINS® 5.9 Series Gas Engines

The MOTORTECH spark plug lead is a direct replacement for the commonly used part in the field. Several design improvements help the lead to perform better than the original part.

P/N 06.85.1046-16

Features

- Spark plug boot made of high temperature resistant silicone
- Additional boot section – No need to pull out boot by pulling on the wire
- Boot seals the wire on the top to prevent water entering – no need for use of tape for extra sealing
- Industrial style terminals for best connection to spark plug and ignition coil
- Flexible MOTORTECH silicone spark plug wire
- Improved ignition coil connector
- Extended length silicone boot for ignition coil connection preventing flashovers

More information about new spark plug lead is available at <http://www.motortech.de/download-centere.html> for download.
