## MOTORTECH ALL-IN-ONE vs. ComAp IntelliSys

MOTORTECH's gas engine management system **ALL-IN-ONE** – in comparison to **ComAp's IntelliSys** – was specially designed for operation with gas engines. Numerous additional features for monitoring, controlling, regulation and system protection make the ALL-IN-ONE the perfect solution for modern CHP plants.

### MOTORTECH ALL-IN-ONE offers more!

- Designed for operation with gas engines
- Special software/ firmware provides the following additional functions/ parameters:
  - Special speed monitoring
  - Possibilities for the adjustment of gas valve control
- Integrated lean burn control makes an additional/ separate control system unnecessary (activation via additional hardware dongle)
- Enables connection and visualization of MIC4 and MIC850 series ignition controllers as well as DetCon detonation control and VariStep stepper motor card via CAN-Bus
- Special mains protection parameters designed for operation of CHP plants
