

MOTInside MOTORTECH Information Center

MOTInside
MOTORTECH INFORMATION CENTER

MOTInside – All MOTORTECH sales and product information at your hand and always up to date on your USB flash drive.

MOTInside MOTORTECH Information Center provides you with all current MOTORTECH sales, service and product information on a USB flash drive. This information can be accessed via the software „MOTInside“, pre-installed on the flash drive, without having an internet connection.

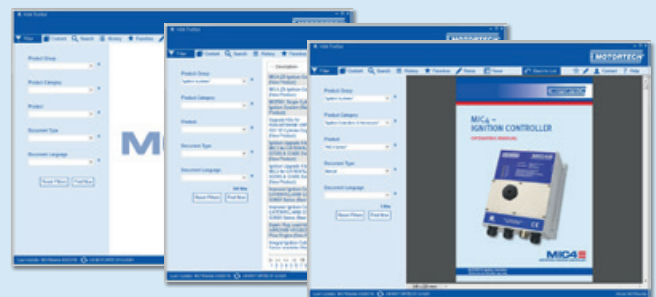

Contains:

- Operating manuals
- Configuration software
- Datasheets and specification sheets
- Catalogues and brochures
- Sales & Service Bulletins

To find your desired documents in MOTInside, you can use filters or full-text-search through all documents in the database. Documents can be added to a favorites list. Further, you can make notes on any document and perform a full-text search through your notes.

The document database on the USB flash drive can be updated regularly each time the flash drive has access to the internet via the computer it is plugged in.

MOTInside – Your perfect companion for selling MOTORTECH products.
