MOTORTECH Spark Plug Cleaning Kit

Regular maintenance is required to achieve the maximum service life in particular with high price spark plugs with precious metal alloys. Apart from readjusting the electrode gap, the spark plug should also be freed from deposits and residues that have formed during operation. By using the MOTORTECH spark plug cleaning kit these can be removed easily and gently in the electrode area and on the thread within a regular maintenance interval. This will increase spark plug service life and cut maintenance costs.

Features

- Professional cleaning of spark plugs without pre-chamber
- Different nozzle sizes matching M18-, M14 and 7/8 inch spark plugs
- Oil residues and deposits in the electrode area are removed without residues by high pressure
- Special blasting grit for gentle cleaning of the electrode and thread area
- Blasting grit is captured and can be reused
- No dust development
