

## New Product

# MAN<sup>®</sup> Throttle Body changeover to E26 and E32 series

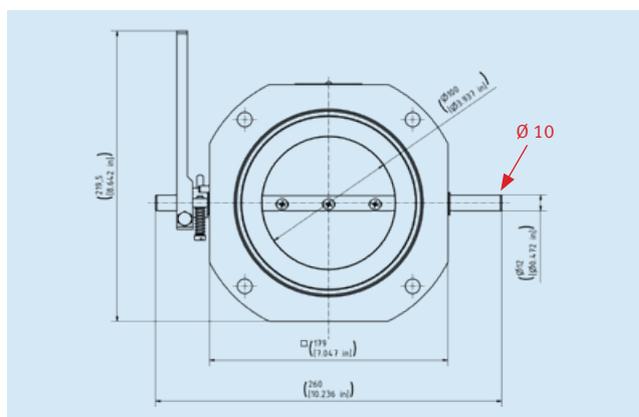

## Bearing shaft extension for new MAN<sup>®</sup> Throttle Bodies

With the sales release VM 20 02 announced MAN<sup>®</sup> a new throttle valve design for the engines E2676 Exxx and E32x Exxx/LExxx. With the MAN<sup>®</sup> production start date 22.11.2019 the new throttle valve was installed in the above mentioned engine types.

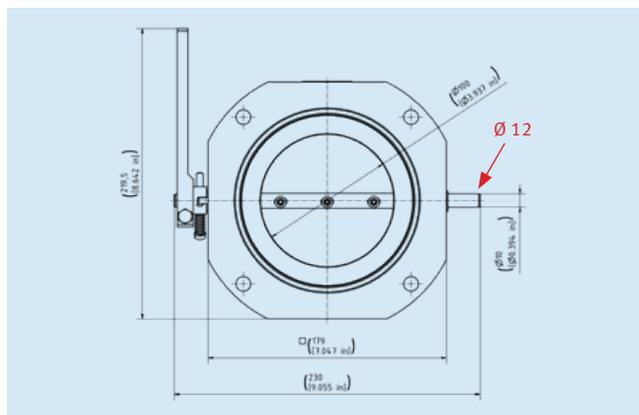

Due to the replacement of the new throttle valve 51.13105-6028 the shaft diameter has been decreased from DM 12 to DM 10 and the length of the bearing shaft has been reduced from 260 mm to 230 mm. This can affect the installation of actuators directly connected to the throttle valve shaft.

For compensation, MOTORTECH offers a shaft extension, so that no design adjustments are necessary.

Old MAN<sup>®</sup> throttle body P/N 51.13105-6018

New MAN<sup>®</sup> throttle body P/N 51.13105-6028

### Features

- Expands the shaft diameter from D 10 to D 12

### Ordering Information

P/N	Figure	Description
03.91.090-A	1	shaft extension (sleeve) D 12 x D 10 x 10mm

### DISTRIBUTION

Customers / others	Yes
Representatives and Sales Partners	Yes
OEM partners	No
MOTORTECH subsidiaries	Yes
